MINI PACEMAN.**

MINI COUNTRYMAN.

Anyone can go with the flow – but true individuals will go their own way. Rocky road? No problem. After all, as the saying goes: there's no such thing as the wrong way – just the wrong car. The MINI Countryman, of course, is exactly the right car. With a powerful petrol or diesel engine and ALL4 all-wheel drive, it'll take you anywhere. Even off the beaten track.

**A CAR THAT GOES
ITS OWN WAY.**

ALL-WHEEL DRIVE FOR ALL SITUATIONS.

Whatever the terrain, the largest, most powerful model in the MINI family is guaranteed to keep you moving. The MINI John Cooper Works Countryman delivers outstanding performance on every surface, offering responsive control, incredible torque and ALL4 all-wheel drive as standard. The vehicle also features the overboost function, temporarily providing up to 300 newton-metres of torque, in the unlikely event that you need a little extra kick. But despite its power, the 160-kilowatt/218-horsepower¹ engine is particularly economical when it comes to fuel consumption.

¹ Details of fuel consumption and CO₂ emissions for all models, as required under EU law, can be found in the Technical Data section on pages 92–94.

FOUR TIMES THE TALENT. THE MINI COUNTRYMAN AT A GLANCE.

1 CONCEPT: REVOLUTIONARY.

A MINI with four doors, an external length of over four metres and optional ALL4 all-wheel drive? There's never been anything like it – until now. The Countryman is unmistakably MINI, with its high shoulder line, unique proportions and distinctive front end. Not to mention its virtually limitless scope for personalization.

2 ENJOYMENT: INDESCRIBABLE.

A unique level of agility and the trademark MINI go-kart feeling mean that the MINI Countryman delivers outstanding traction on any surface. The result is unparalleled driving enjoyment, in any situation. It's hard to believe – until you try it for yourself.

3 PRACTICALITY: EXCEPTIONAL.

The vehicle is functional on the outside, with four wide-opening doors, a tailgate and a higher body, and flexible on the inside, with a sophisticated Center Rail and a split-folding rear seat bench (40:60) for three people that slides forwards or backwards by up to 13 centimetres – making it exceptionally versatile, outside and in.

4 SPACE: GENEROUS.

Over four metres long, there's more room here for passengers and luggage than in any other MINI. Thanks to 350 to 1,170 litres of luggage capacity – depending on the position of the rear seat bench – no matter much you pack, setting off for a holiday is just as much fun as the holiday itself.

MINI PACEMAN.

DESIGN WITH BITE.

The MINI Paceman is eye-catching without being intrusive. Its all-new design turns heads all around town. One look under the bonnet of the latest addition to the MINI family and it's clear that it has everything you need for an enjoyable drive. Four engine types are available, packing up to 184 horsepower (135 kilowatts) and ready to take you down the city's liveliest streets. ALL4 all-wheel drive is optional. As for style – that comes as standard.

For more information on the MINI Paceman, see www.MINI.com/Pacman

A PERFORMANCE ARTIST.

THE MINI JOHN COOPER WORKS PACEMAN.

The MINI John Cooper Works Paceman skilfully blends the elegance of a Sports Activity Coupé with the performance of a sports car. On the inside, Anthracite dials, John Cooper Works door sill finishers and Chili Red stitching on the sport seats, leather steering wheel, gear lever knob and gaiter capture the essence of the racetrack.

On the outside, stylish light-alloy rims combine with optional sport stripes, contrast roof and exterior mirror caps in exclusive Chili Red to make the MINI John Cooper Works Paceman a real work of art. And the technology is just as impressive – so as well as looking like an out-and-out sports car, you can be sure that it drives like one too.

Interested? Then head to your MINI dealer for more information on the MINI John Cooper Works Paceman and to book a test drive today.

CHARACTER STUDY. THE MINI PACEMAN AT A GLANCE.

1 DESIGN: CLASSY.

Lengthened doors, a long shoulder line and a slanting roofline – no MINI has ever been this sporty and elegant. The horizontal design of the new rear lights complements its coupé profile, and there are also plenty of familiar, iconic MINI design elements, such as the radiator grille, the side scuttles and the contrast roof. In short, the design is unmatched and unmistakable.

2 PERFORMANCE: OUTSTANDING.

Stiff suspension and direct steering. State-of-the-art engines that combine immediate acceleration and excellent responses with optimum fuel-efficiency. Top-class traction with Dynamic Traction Control (DTC) and ALL4 all-wheel drive available as options. Put it all together and you get an enjoyable drive that surpasses any other.

3 VERSATILITY: INCREDIBLE.

The MINI Paceman is equally impressive when it comes to everyday practicality, thanks to wide-opening doors, 330 to 1,080 litres of luggage capacity and two individual folding seats in the rear. Countless storage compartments and sophisticated features like the Center Rail make it even more versatile, and ready to handle the fresh challenges that each new day brings.

4 INTERIOR: LOGICAL.

Sometimes less is more – and more is always a good thing. That's why you'll find a surprising amount of room for four beneath the elongated roof of the MINI Paceman. Two comfortable individual seats in the rear turn this unique Sports Activity Coupé into a mobile lounge.

MODELS.

TWO MODELS, COUNTLESS POSSIBILITIES AND ONE PIECE OF GOOD NEWS: YOU CAN'T GO WRONG.

To start with, all you have to do is work out which model suits you best: the MINI Countryman or the MINI Paceman. Once we've established your favourite, the personalization process really gets into gear. Choose an engine type, colours, seats and upholstery, interior and equipment. But don't worry – good looks are guaranteed, whichever model you go for. And with the new model name lettering on the tailgate, you can be sure that both vehicles will make an impression.

MINI ONE COUNTRYMAN. MINI ONE D COUNTRYMAN.

Whether you choose the petrol-driven model that delivers a sprightly 98 horsepower/72 kilowatts or the high-torque 90-horsepower/66-kilowatt diesel version, the roof of the MINI One Countryman always comes in body colour and blends harmoniously into a rear spoiler in the same colour. Other details that make the MINI One/D Countryman immediately recognizable include exterior mirror caps in Matt Black, roof rails in Matt Silver and side scuttles in the same colour with orange indicator lights.

With a Chrome-edged radiator grille in Brilliant Black and lower air intake, the distinctive front end is a real head turner.

A particular highlight on the rear of the MINI One/D Countryman is the Chrome tailpipe.

**MINI COOPER COUNTRYMAN.
MINI COOPER D COUNTRYMAN.
MINI COOPER D ALL4 COUNTRYMAN.**

The MINI Cooper Countryman is available with either a 122-horsepower/90-kilowatt petrol engine or a 112-horsepower/82-kilowatt diesel engine. The MINI Cooper D Countryman can also be fitted with ALL4 all-wheel drive. For either model, the roof and exterior mirror caps are available either in body colour and, on request, in contrast colours (Black or White). Other visual highlights include the Matt Silver roof rails and side scuttles with orange indicator lights.

Utterly unique: striking Silver radiator grille slats on the MINI Cooper/D Countryman and the MINI Cooper D ALL4 Countryman.

Finished in the same colour as the roof, the rear spoiler blends perfectly into the roofline. The distinctive tailpipe is Chrome-plated.

**MINI COOPER S COUNTRYMAN.
MINI COOPER SD COUNTRYMAN.
MINI COOPER S ALL4 COUNTRYMAN.
MINI COOPER SD ALL4 COUNTRYMAN.**

The MINI Cooper S Countryman features an impressive 1.6-litre twin-scroll turbo engine that delivers 184 horsepower/135 kilowatts, while the MINI Cooper SD Countryman comes with a 2-litre common-rail diesel engine offering 143 horsepower/105 kilowatts and 305 newton-metres. ALL4 all-wheel drive is available as an option for both engine types. The roof and exterior mirror caps are available either in body colour or in contrast colours (Black or White), and the roof rails, side scuttles and exclusive light-alloy rims come in a stylish Matt Anthracite. Other highlights include the red Cooper S emblems and the White indicator lights in the side scuttles.¹

There's an unmistakably sporty feel to the front of the MINI Cooper S/SD Countryman and the MINI Cooper S/SD ALL4 Countryman: it features a hexagon-mesh radiator grille, central air intake between the bonnet and front apron and air ducts for the brakes in the lower air intake.

At the rear, the two Chrome-plated tailpipes of the exhaust system and the exclusive design of the rear spoiler on the S/SD models underline their sporting prowess.

¹ Visual shows optional equipment incl. bi-xenon headlights.

**MINI COOPER PACEMAN.
MINI COOPER D PACEMAN.
MINI COOPER D ALL4 PACEMAN.**

The standard Cooper version of the MINI Paceman gets the range off to a strong start, delivering 122 horsepower/90 kilowatts. The MINI Cooper D Paceman provides plenty of torque along with 112 horsepower/82 kilowatts, plus ALL4 all-wheel drive is available as an optional extra. The roof and exterior mirror caps come in a choice of body colour or contrast colours – White or Black – for both engine types, and the Matt Silver side scuttles feature orange indicator lights.¹

Make an entrance: the radiator grille on the MINI Cooper/D Paceman and the MINI Cooper D ALL4 Paceman includes attractive Silver slats and wide Chrome edging. The lower radiator grille features a three-dimensional design that adds extra depth.

Exit in style: with a rear spoiler finished in the same colour as the roof and Chrome plating on the tailpipe, the MINI Cooper/D Paceman and MINI Cooper D ALL4 Paceman are unmistakable from the rear.

**MINI COOPER S PACEMAN.
MINI COOPER SD PACEMAN.
MINI COOPER S ALL4 PACEMAN.
MINI COOPER SD ALL4 PACEMAN.**

The MINI Cooper S version features a 1.6-litre twin-scroll turbo engine with an output of 184 horsepower/135 kilowatts, while the MINI Cooper SD model comes with a powerful 2.0-litre common-rail diesel engine that delivers 143 horsepower/105 kilowatts. Optional ALL4 all-wheel drive is available for both engine types. Each variant bears the mark of a star performer: Matt Anthracite side scuttles with red S emblems and White indicator lights. The roof and exterior mirror caps are available in a choice of body colour or contrast colours (Black or White).

Viewed from the front, the hexagon mesh radiator grille, large air intake between the radiator grille and the bumper and brake-cooling air ducts all emphasize the sporty nature of the MINI Cooper S/SD Paceman and the MINI Cooper S/SD ALL4 Paceman.

At the rear, along with their respective roof spoilers, the MINI Cooper S/SD Paceman and the MINI Cooper S/SD ALL4 Paceman both feature a dual port exhaust system with two Chrome-plated tailpipes.

BLACK. WHITE. BRIGHT. MINI COLOUR THEORY.

The roof of the MINI One/D Countryman always comes in body colour, with exterior mirror caps in Matt Black as standard.

If the roof of the MINI Cooper/D Countryman, MINI Cooper S/SD Countryman, MINI Cooper/D Paceman, MINI Cooper S/SD Paceman or the ALL4 versions of the MINI Countryman and MINI Paceman is painted in body colour, then the exterior mirror caps also come in body colour as standard.

However, for the MINI Cooper/D Countryman, MINI Cooper S/SD Countryman, MINI Cooper/D Paceman, MINI Cooper S/SD Paceman and the ALL4 versions of the MINI Countryman and MINI Paceman, the roof is also available in a contrast colour (Black or White). If this option is specified, this can be combined with exterior mirror caps in Brilliant Black or White.

Exterior mirror caps in Chrome are available as an option in conjunction with any model or roof colour.

10. Comfort access system

11. Comfort access system

1. The optional **bi-xenon headlights** for low-beam and full-beam settings, with headlight beam-throw control and headlight washer system, offer particularly powerful illumination.

2. The **Adaptive Headlights**, featuring automatic headlight beam-throw control, ensure optimum illumination whether driving in city or country, and allow drivers to see further ahead on the motorway. Sensors measure the steering angle and vehicle speed, and electric motors then adjust the position of the light beam accordingly to suit the speed and direction of the car (only available in conjunction with bi-xenon headlights).

3. The **Black headlight reflectors** are available in conjunction with bi-xenon headlights, Adaptive Headlights and White direction indicator lights.

4.+7. The MINI Countryman and the MINI Paceman both feature a single **rear fog light** built into the rear light on the driver's side. The corresponding section of the passenger-side rear light houses the reversing light.

5. The **fog lights** are built into the front apron, and offer improved safety when visibility is poor.

6. The **White direction indicator lights** option comprises clear glass for the indicators in the front headlights and side scuttles.

8. The **rear-mounted rack preparation** for multifunctional carrier systems from the MINI Original Accessories range, such as bicycle carriers, is located in the rear apron. When not in use it is concealed by two covers.

9. Depending on the model, the **trailer tow hitch** with removable ball head is suitable for towing loads of up to 1,200 kilograms.

10.–11. The **comfort access system** allows you to lock and unlock the car without even having to touch the key. Simply having one of the two keys in your pocket or handbag is enough. You can also switch the ignition on and off keylessly, simply by pressing the Start/Stop button.

EXTERIOR.

1. Glass sliding/vent roof, MINI Countryman

2. Glass sliding/vent roof, MINI Countryman, adjusted from the front and the rear

3. Glass sliding/vent roof, MINI Paceman, adjusted from the front

1.–3. The large, two-part **glass sliding/vent roof** creates an extremely spacious feel and provides plenty of fresh air. It can be electrically adjusted – from the front and the rear in the MINI Countryman, from the front only in the MINI Paceman – and via remote control for maximum convenience. Tinted glass or two detachable roller sunblinds built into the central section of the roof protect the occupants from bright sunlight.

4. **Sun protection glazing** reduces the build-up of heat in the interior of the car caused by strong sunlight, making things more comfortable for the occupants. The glass is visibly darker from the B-pillars backwards (including the rear windscreen).

4. Sun protection glazing

5. MINI Paceman roof rails

5. Practical and stylish, the **roof rails** are fitted as standard on the MINI Countryman and are available as an option for the MINI Paceman. They enable roof boxes, cycle carriers, ski carriers and other attachments to be easily fixed to the vehicle, and since aesthetic appeal is such an important part of every MINI, they also blend effortlessly into the design of the car. Available in Silver for the MINI One/D Countryman and Cooper/D models. Also available in combination with the Chrome Line Exterior for Cooper S/SD and John Cooper Works models. Comes in Anthracite for Cooper S/SD and John Cooper Works models without the Chrome Line Exterior. Maximum load: 75 kilograms.

1. Sports suspension set-up

2. ALL4

1. The **sports suspension set-up** delivers even sportier and more precise handling responses, thanks to its stiffer damper settings. 10 millimetres lower than the standard suspension, it looks good too.

2. The MINI Cooper D Countryman, MINI Cooper S/SD Countryman, MINI Cooper D Paceman and MINI Cooper S/SD Paceman are available with **ALL4 permanent all-wheel drive** as an option, giving them improved handling and allowing them to take short excursions off-road. The unmistakable ALL4 emblem appears on the doors.

FUN ALL THE WAY.

3. Rear spoiler

4. Rear spoiler

3. The **rear spoiler** is always painted in the same colour as the roof, and fits seamlessly into its lines.

4. The distinctive **MINI Cooper S/SD Countryman** and **MINI Cooper S/SD Paceman rear spoiler** comes in the same colour as the roof and fits in perfectly with the sporty personality of these models.

TRUE BEAUTY IS ON THE INSIDE.

INTERIOR DESIGN ELEMENTS.

As well as the interior colour, there are a variety of Colour Line options to choose from for the door mirrors and the decorative insert in the Center Rail – to create the perfect interior. Various options are also available for the cockpit surface and interior surface.

INTERIOR AND COCKPIT SURFACES.

An interior with atmosphere: the MINI One/D Countryman, MINI Cooper/D Countryman and MINI Cooper D ALL4 Countryman all offer the option of an interior surface in Dark Silver. On the MINI Cooper/D Paceman and MINI Cooper D ALL4 Paceman, this comes as standard. On the MINI Cooper S/SD Countryman, MINI Cooper S/SD ALL4 Countryman, MINI Cooper S/SD Paceman and MINI Cooper S/SD ALL4 Paceman, the standard interior surface is a sporty, elegant Dark Anthracite. Piano Black is also available as a stylish option on all models. All these finishes – Dark Silver, Dark Anthracite and Piano Black – can also be specified for the cockpit surface. The rings around the speedometer, centre air vents and and gear lever knob always come in Carbon Black, while the decorative inner rings on the speedometer and air vents come in Brilliant Black as standard. If the Chrome Line Interior is specified, the decorative inner rings on the air vents, revolution counter and speedometer are Chrome-plated.

4. Storage package

1. The **2-spoke leather steering wheel** has a driver airbag built in. The wide Chrome ring is an eye-catching design detail.
2. The **3-spoke sports leather steering wheel** is also available with a multifunction option, allowing drivers to operate cruise control, radio and telephone functions without taking their hands off the wheel.
3. In addition to the standard interior light in the headliner, the **Lights package** includes front reading lights, an illuminated vanity mirror, lights in the front footwells and an instrument panel backlight. And for that extra-special finishing touch, the Ambient Lighting for the door mirrors, armrest and Center Rail can cycle steplessly through all the colours of the spectrum.

4. Optimized for the short, full-length and two-section variants of the Center Rail, the **storage package** is the perfect way to keep the interior of your MINI Paceman or MINI Countryman in order. For models fitted with a full-length Center Rail, it includes two additional cup holders, a stylish glasses compartment, a horizontal iPhone/iPod holder¹ for the front and a vertical iPhone/iPod holder¹ for the rear. The package also includes two bag hooks², fixing elements for the front cupholders, a storage net in the front passenger footwell, a 12-volt socket in both the back row of seats and the luggage compartment, and a third sun visor fitted at the side of the headliner. For MINI Countryman and MINI Paceman models fitted with a short or two-section Center Rail, the number of features included in the package is reduced.

¹ The holders are also compatible with many other smartphones.

² Only available in conjunction with the full-length Center Rail.

ADJUSTS TO SUIT YOUR MOOD.

1.–3. The most striking feature of the interior is the aluminium **Center Rail**, which runs down the middle of the car between the driver and passenger seats. A fixed decorative insert in the Colour Line colour ensures the Center Rail is coordinated with the interior colour scheme. Where the optional MINI navigation system and Radio MINI Visual Boost are fitted, the Center Rail is also equipped with a joystick for controlling them. Furthermore, various designs of the Center Rail are available for the MINI Countryman and the MINI Paceman.

1. MINI Countryman with short Center Rail and five seats

2. MINI Paceman with optional full-length Center Rail

3. MINI Paceman with standard two-section Center Rail

1. The MINI Countryman is configured as standard with five seats and a **short Center Rail** with two dividing elements.
2. As an option, the MINI Paceman can be fitted with the **full-length Center Rail** with three dividing elements. This provides all occupants with easy access to the system.
3. The MINI Paceman comes as standard with a **two-section Center Rail** with three dividing elements. It features separate compartments for the front and the rear.

4. Three-seat bench in the MINI Countryman with individually sliding sections (60:40 split)

5. MINI Countryman backrest with a 40:20:40 split. Sections can be tilted and folded down separately.

4.+5. Where the **three-seat bench** is specified for the MINI Countryman, the sections of the rear bench are split 60:40 and can be moved 13 cm forwards and backwards independently of each other. The backrest has a 40:20:40 split, and the sections can be tilted and folded down separately.

6. Lounge rear seats in MINI Paceman, four-seat models

7. Lounge rear seats in MINI Paceman, four-seat models

6.+7. In the interests of keeping the rear as comfortable and luxurious as possible, the MINI Paceman is only available as a **four-seater**. Its relaxed lounge rear seats fold down separately with a 50:50 split.

ROOM TO SPARE.

Highly inviting: with an external length of over four metres, the MINI Countryman and the MINI Paceman are the largest members of the MINI family. Their wide-opening tailgates can accommodate virtually everything you might need for everyday driving, weekend excursions or going on holiday.

The luggage compartment of the MINI Countryman holds between 350 and 1,170 litres, depending on the position of the rear seat bench. The MINI Paceman is equally generous, offering between 330 and 1,080 litres. Both vehicles come with a wide range of cleverly designed compartments offering extra storage space, while Original MINI Accessories provide the ideal solutions for larger logistical challenges.

ENTERTAINMENT AND
COMMUNICATIONS.**

INFORMATION IS EVERYTHING.

1. Revolution counter

2. On-board computer

3. Rain sensor

The large **speedometer** is positioned in the middle of the instrument panel and incorporates various warning lights and the fuel gauge.

If the MINI navigation system or Radio MINI Visual Boost is fitted, then the **speedometer** runs around the outside of the central round instrument.

Once the key is in the ignition, the **Start/Stop button**, fitted as standard, can be used to switch the engine on or off.

1. Fitted as standard, the **revolution counter** is mounted on the middle of the steering column. The upper display shows the current speed, while the lower display shows information such as the trip distance or seat belt warning for the rear seats. It also includes the Shift Point Display, telling you which gear is the most economical at any given moment.

2. The **on-board computer** tells you your range, current and average fuel consumption, and average speed at the touch of a button.

3. When the **rain sensor** is activated, it automatically switches on the windscreen wipers when necessary, and adjusts their speed to how hard it is raining. The built-in light sensor automatically switches on the driving lights when needed in dark or twilight conditions.

CHANGE GEAR.

1. Exterior mirror package

2. Six-speed Automatic Transmission Steptronic

3. Shift paddles on 3-spoke sports leather steering wheel

1. If the **exterior mirror package** is specified, the two aspherical exterior mirrors are heated and can be folded away electrically. Windscreen washer jet heating is also included. The **rear-view and exterior mirrors with automatic anti-dazzle function** dim the light from the headlights of following vehicles if this reaches a certain level of intensity.

2.+3. The **six-speed Automatic Transmission Steptronic** makes gear changes easier and – in Steptronic mode – decidedly sporty. To allow drivers to make manually initiated automatic gear changes quickly and safely, the Cooper S/SD models featuring Steptronic as standard also come with two **shift paddles on the 3-spoke sports leather steering wheel**. These shift paddles are also available as an option on the MINI One Countryman, MINI Cooper/D Countryman and MINI Cooper/D Paceman.

4. Air conditioning

6. Visibility package

5. Automatic air conditioning

7. Seat heating

4. The **air conditioning system** with microfilter means passengers can enjoy their ideal interior temperature, whatever the conditions outside. The amount and distribution of conditioned air can be adjusted to suit individual requirements.

5. **Automatic air conditioning** rapidly adjusts the interior temperature to the level you have selected, and then keeps it there. The built-in active carbon filter protects passengers against unpleasant odours from outside.

The manual air circulation function is automatically switched off after a set interval – turn-off time is between one and 15 minutes, depending on the outside temperature – to maintain just the right level of fresh air inside the car.

6. The **visibility package** ensures drivers can always see clearly, allowing them to heat the front windscreen at the touch of a button, and also includes the rain sensor and automatic headlight activation.

7. The **seat heating** option allows both the driver and front-seat passenger to choose between three seat temperature settings.

LET MINI ENTERTAIN YOU.

It'll take you just five steps to personalize the information, communications and entertainment functions. The first is to choose your radio head unit. With its large display, the Radio MINI Visual Boost is a particularly powerful portal to exciting new dimensions of interactivity. You can then pick and choose from the available service, music and Bluetooth/USB categories to suit your personal requirements, from MINI Connected to the MINI navigation system (only a selection of the full range is shown here). Whatever your tastes, you're sure to find the ideal solution.

The **Radio MINI CD** comes as standard, and includes an RDS tuner with scan function, permanent clock display and FM, MW and LW reception. The built-in CD player with MP3 decoder has a title search function and fast forward/rewind. The system also features six speakers and an AUX-IN connection for MP3 players.

1 RADIO HEAD UNITS.

1. Radio MINI Boost CD

2. Radio MINI Visual Boost

1. The **Radio MINI Boost CD** shares all the features of the Radio MINI CD, but also has a two-column display, antenna diversity for optimum reception, controls for external audio players and the like, a Bluetooth mobile phone preparation and a DAB radio tuner.

2. The **Radio MINI Visual Boost** has all the features of the Radio MINI Boost CD, and then some: a high-resolution 6.5-inch display with comfortable intuitive control system and a distinctive MINI look and feel, a Bluetooth hands-free kit with USB audio interface, an on-board computer¹ and an audio/video adapter for the Apple iPod/iPhone. The built-in video function (in conjunction with compatible video-capable Apple devices) allows videos to be watched on the display when the car is stationary. The Radio MINI Visual Boost is "MINI Connected ready", meaning that for a fee it can be upgraded with the MINI Connected option.²

2 MUSIC.

1. harman/kardon hi-fi loudspeaker system

2. harman/kardon hi-fi loudspeaker system

3. harman/kardon hi-fi loudspeaker system in the rear side panel of the MINI Paceman

1.–2. **harman/kardon hi-fi loudspeaker system:** a digital multichannel amplifier and a total of ten high-performance speakers seamlessly integrated into the vehicle interior deliver a unique sound experience, thanks to a total output of up to 480 watts, with powerful bass and brilliant treble.

3. **Music lounge: the harman/kardon hi-fi loudspeaker system** in the MINI Paceman includes a tweeter and a midrange speaker in each of the rear side panels.

3 BLUETOOTH/USB.

4. Bluetooth hands-free kit with USB audio interface

5. Bluetooth mobile phone preparation with USB audio interface

4. The optional **Bluetooth hands-free kit with USB audio interface** connects wirelessly to Bluetooth-enabled mobile phones. The USB audio interface supports the connection of a device such as an iPod, USB memory stick or MP3 player. Users can select tracks stored on the device by album, artist, genre etc. via the radio or central display.¹

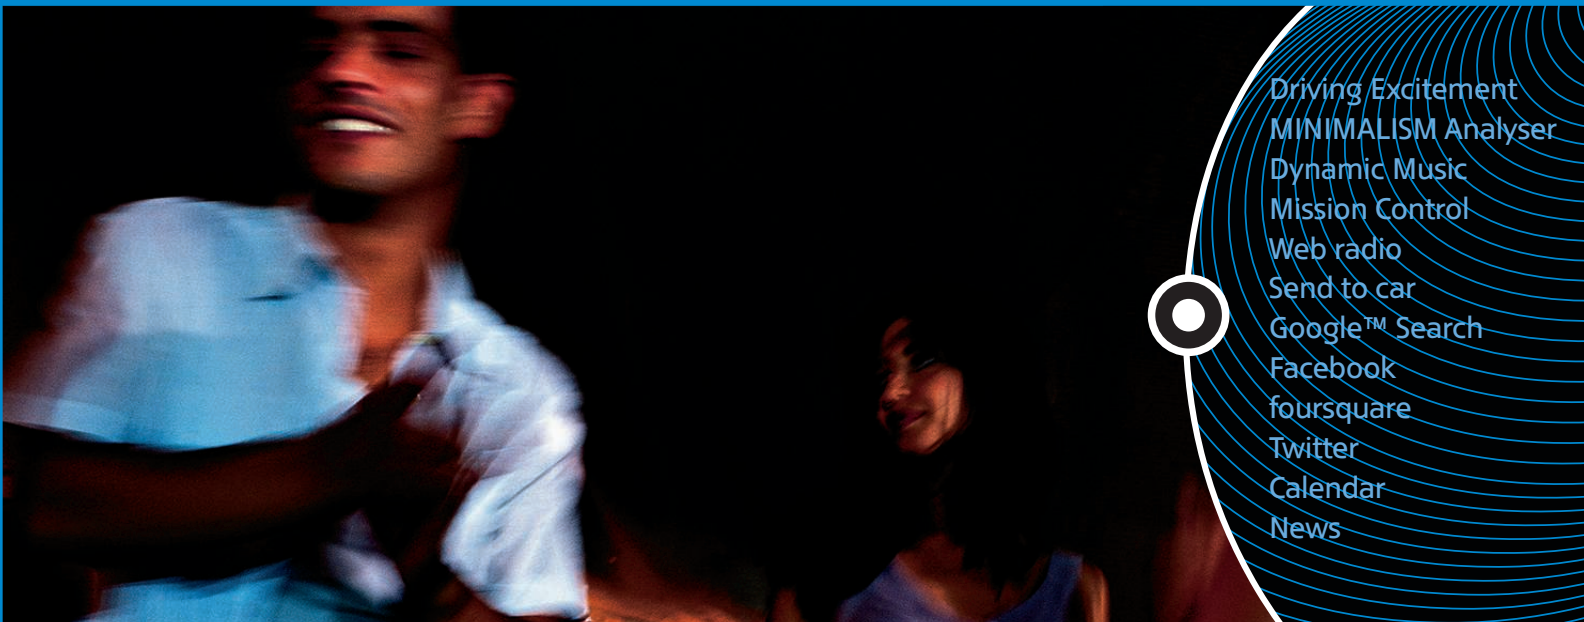

5. The **Bluetooth mobile phone preparation with USB audio interface** also includes a centre armrest and a 3-spoke sports leather steering wheel with multifunction option and cruise control. With a snap-in adapter, available for a fee, a Bluetooth-enabled mobile can be plugged in to a slot in the armrest, which charges its battery, and connects it to the vehicle aerial for improved reception. In conjunction with the optional Radio MINI Visual Boost you can use many of the functions on your smartphone, such as Bluetooth audio streaming and album cover artwork display, easily and safely on the radio display.^{1,2}

4 NAVIGATION SYSTEM.

The optional **MINI navigation system** turns the Radio MINI Visual Boost into a powerful navigation solution, with navigation instructions given via voice prompts and on-screen arrows and maps. It also includes day and night modes, a search function for points of interest, TMC reception via a double tuner, a GPS aerial and support for updates via the USB interface.¹

² Subject to availability of device-specific snap-in adapters.

5 MINI CONNECTED.

Full speed ahead on the information super-highway: **MINI Connected** revolutionizes the world of in-car infotainment, seamlessly linking car and driver with the online world. An all-new USB interface seamlessly integrates the sophisticated features of your iPhone (not supplied) into the audio and infotainment system of your MINI. Information and contents appear on the central display in typical MINI style and are controlled via either the MINI joystick or the 3-spoke sports leather steering wheel with multifunction option. The MINI Connected iPhone app allows you to connect to foursquare, Facebook and Twitter, or to get the latest news via RSS feeds.^{1,2}

The **main menu** is located on the central display of your MINI, and displays the full range of infotainment options. All you have to do is choose how you'd like to be entertained.

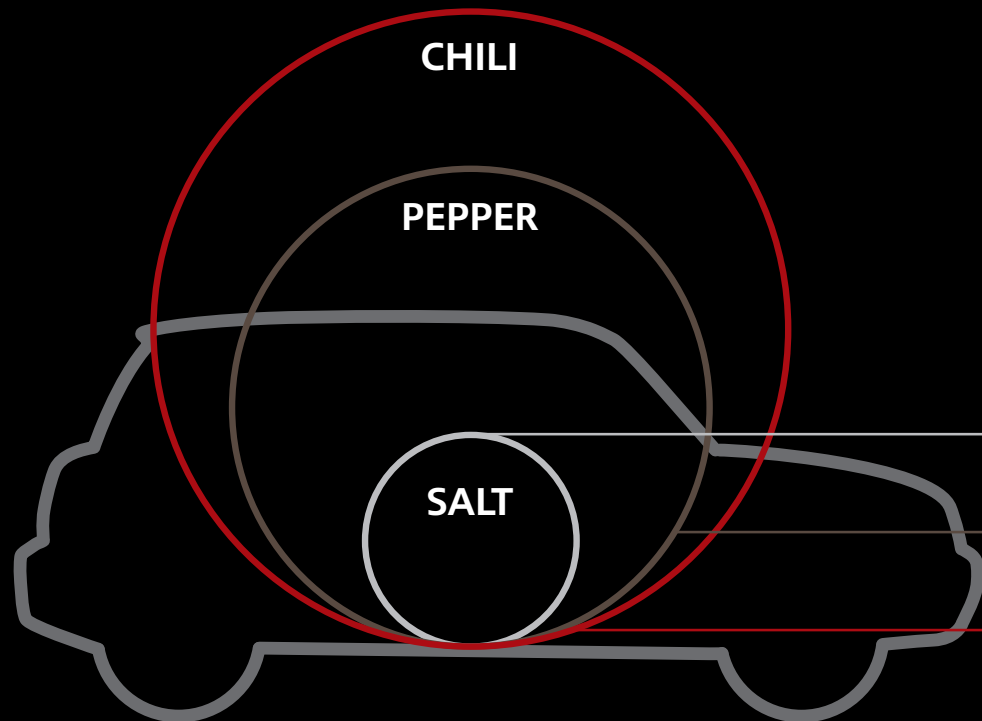

A highlight is the **Driving Excitement** function, which includes a digital sport display and analyses how sporty and accurate your driving style is, further ratcheting up the fun.

International **web radio** with MINI Connected: select from thousands of stations. Wherever you happen to be, you're guaranteed to find something to please.

¹ Additional optional equipment required.
² Availability and range of features are dependent on the other equipment fitted, and may vary from country to country. Range and graphic design of MINI Connected functions subject to change without notice. Broadband mobile Internet access required. Costs resulting from this (e.g. data roaming) will be payable as specified in the contract with your network provider. MINI Connected app, available free of charge from the device manufacturer's app store (subject to national restrictions). Updates available free of charge, but version upgrades may be chargeable. If further MINI Connected-compatible apps become available, these will be identified/promoted accordingly. PACKAGES.**

SPICE UP YOUR MINI.

Get more out of your MINI: the SALT, PEPPER and CHILI packages offer three stylish trim options, each with varying levels of comfort. And for added customization, all three can be combined easily with the WIRED and CITY packages.

SALT.

Add a little flavour to your MINI with the SALT package. The features in this entry-level solution range from foot mats in velour to the lights package with Ambient Lighting. It's a great way of increasing comfort for everyone on board.

PEPPER.

The PEPPER package brings a little more to the table. Additional options include the rain sensor and automatic air conditioning, and mean the MINI can handle all weather conditions with ease.

CHILI.

Spice up your MINI even more. In addition to the features included in the PEPPER package, CHILI offers bi-xenon headlights (for Cooper S/SD and MINI John Cooper Works models), cloth/leather seats and larger light-alloy wheels. So however much things may heat up, you'll never lose your cool.

**JOINED-UP THINKING:
MORE PACKAGES FOR YOUR MINI.**

From the Radio MINI Visual Boost with navigation system to MINI Connected, this package brings man and machine together in perfect harmony.

The City package makes every trip into town a breeze. It includes the alarm system, Park Distance Control and a host of other handy features.

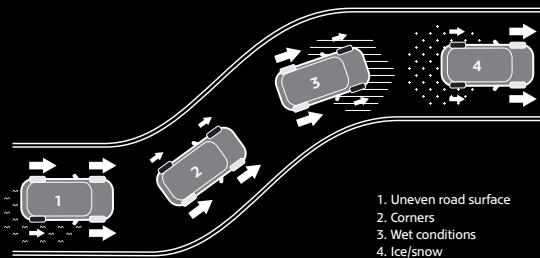

**JOHN COOPER
WORKS.**

MINI JOHN COOPER WORKS COUNTRYMAN.

GRAVEL? MUD? SHARP BENDS? ALL IN A DAY'S WORK!

The ALL4 all-wheel drive system distributes the impressive output of the MINI John Cooper Works Countryman to the front and rear axles as required, with up to 50% of engine torque being directed to the rear axle. In challenging situations, such as icy or snowy conditions, the torque is distributed to the wheels which have the best grip, thereby ensuring optimal traction, stability and safety.

ADRENALIN TO GO.

A TREAT FOR THE EYES AND THE EARS.

The throaty sound of the twin-pipe sports exhaust with its striking, slanted tailpipes is music to the ears of any motorsport enthusiast. And all drivers will love feasting their eyes on the standard aerodynamic package with front and rear aprons, striking side skirts and track-style air intakes.

MINI JOHN COOPER WORKS PACEMAN.

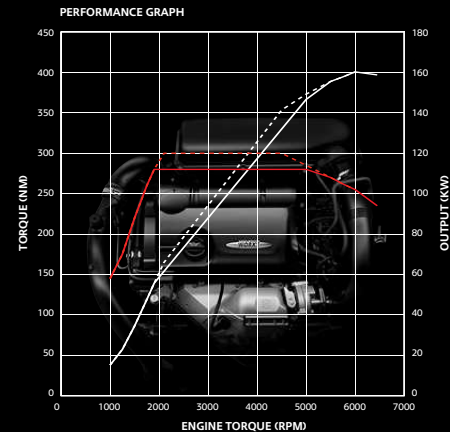

PERFORMANCE ART.

Viewed from the outside, the MINI John Cooper Works Paceman blends the motorsport prowess of John Cooper Works models with the coupé lines of the MINI Paceman. Beneath the bonnet, it's all about John Cooper Works: The vehicle boasts the most powerful MINI engine currently available, with a high-tech twin-scroll turbocharger, direct fuel injection, variable valve control and incredible fuel economy for the level of performance offered. Press down firmly on the accelerator and overboost kicks in, adding an extra 20 newton-metres of torque to deliver up to 300 newton-metres in total, while the ALL4 all-wheel drive system, fitted as standard, ensures the vehicle's exceptional power is matched by impeccable traction.

POWER PLAY.

Take a moment to absorb your surroundings while the lights are on red. Tighten your grip on the non-slip 3-spoke sports leather steering wheel, featuring the John Cooper Works badge and contrast stitching in Chili Red, and steal a glance at the stylish instruments with dials in Anthracite. Watch the tachometer needle twitching in anticipation and take a glimpse at the Chili Red stitching on the gear lever knob and gaiter – a subtle hint at what the powerful turbo engine under the bonnet has to offer. When the lights turn green, release the clutch and feel the power of the engine pressing you against the sport seat – a welcome reminder that there's no better car to put the city streets to the test at night.

MINI Cooper S Countryman and MINI Cooper S Paceman with John Cooper Works Tuning

19" Double Spoke R129 in Burnished Black

Sports steering wheel in Alcantara

Sports silencer in Chrome

A powerful look, striking design and improved performance reflect the proud racing heritage of **John Cooper Works Tuning**¹. So you shouldn't find it difficult to make your MINI Countryman or MINI Paceman look even more fierce. A great way to do this is to kit it out with the design package in Chili Red (comprising side stripes, mirror caps and brake air duct in fiery Chili Red). The sporty personality really comes to the fore with various types of light-alloy wheels, available in Matt Black or Burnished Black,

and you can make the car look even more powerful with the sports silencer in Chrome. The interior John Cooper Works components are just as eye-catching. For example, the sports steering wheel in Alcantara with Carbon trim looks as good as it feels. With John Cooper Works Tuning, your MINI Countryman or MINI Paceman will deliver a genuine racetrack experience.

ORIGINAL MINI ACCESSORIES.

MINI Cooper S Countryman and MINI Cooper Paceman with Original MINI Accessories

Rail-Box with Care Tissues Box

All-weather floor mats

Aluminium rear-mounted rack

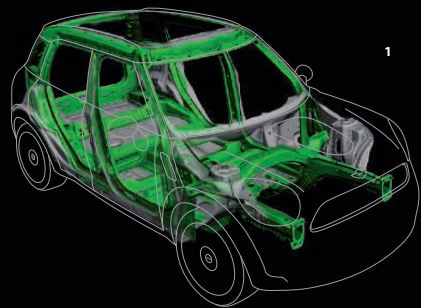

With **Original MINI Accessories**¹, you really can take absolutely everything with you: available accessories include the lockable aluminium rear-mounted rack for transporting two bicycles – where the tailgate can also be opened when the rack is fully loaded – and the surfboard holder made of impact-resistant plastic with built-in mast holder. Of course, smaller items can be stowed away nicely too.

The Rail-Box is a practical universal box for the interior with 1.5-litre capacity. You can safely store all sorts of things in it, such as a glasses case, wallet or mobile. And the little ones have one too in the MINI junior seat I-II, which is fitted with a height and tilt-adjustable back and a restraint cushion. You can make the footwell even more comfortable with the hard-wearing all-weather floor mats, available as a two or four-piece set for the front and/or rear in Black, either with the MINI logo or MINI Cooper S lettering.

**CONCEPT
AND SAFETY.
MINI DATA.**

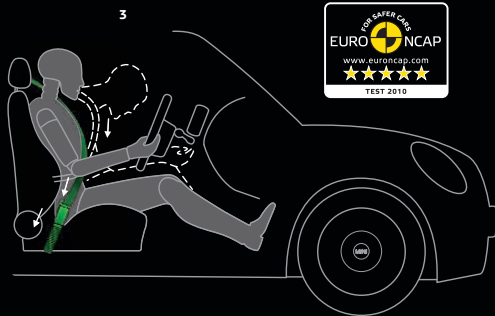

CONCEPT AND SAFETY.

1

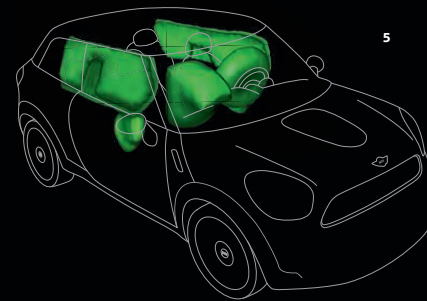

2

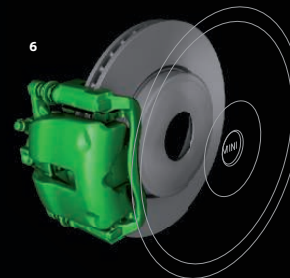

3

4

5

6

1.+ 2. BODY. The body of the MINI Countryman and the MINI Paceman has been reinforced at strategic points, guaranteeing extreme torsional rigidity for an exceedingly robust passenger compartment that delivers the perfect combination of comfort, acoustics and protection.

SUSPENSION. The combination of a single-joint spring-strut front axle and a multiple-control-arm rear axle with wide track and a low centre of gravity results in the unmistakable MINI feeling: stable, agile, with optimum cornering ability at all speeds, plus superb traction and outstanding safety.

3. RESTRAINT SYSTEM. A combination of three-point belts, belt tensioners and belt force limiters means driver and front-seat passenger enjoy the best possible protection in the event of a crash.

ISOFIX. To ensure the safety of younger passengers, one or two ISOFIX child seats can be mounted in the rear as standard.

EURO NCAP CRASH TEST. In the Euro NCAP crash test, the MINI Countryman scored a maximum of five stars. The level of protection for the occupants was rated as excellent in front, side and pole impacts, and the car also received outstanding scores for child safety.

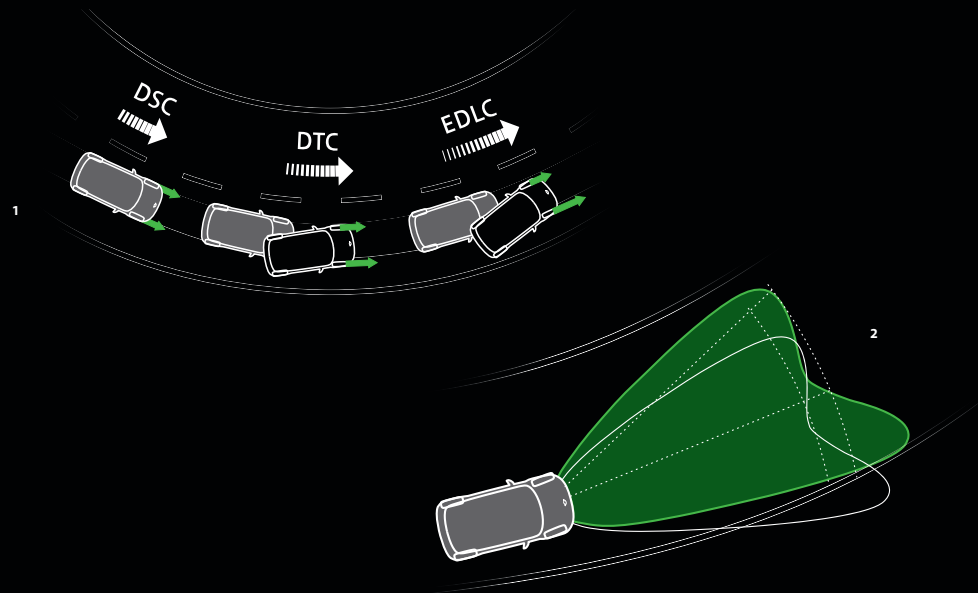

4.+ 5. AIRBAGS. The MINI Countryman and the MINI Paceman are fitted with six airbags as standard: driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while side and head airbags are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

6. BRAKING SYSTEM. Four disc brakes with Anti-lock Braking System (ABS) and Cornering Brake Control (CBC) as standard ensure optimum braking performance in any situation. Electronic Brakeforce Distribution (EBD) manages the distribution of braking force between the front and rear axles. Brake assist also supports this process, to deliver maximum braking force and ensure the shortest possible stopping distances.

DYNAMIC BRAKING LIGHT. This alerts following drivers to dangerous situations faster. Under normal braking the light comes on in the conventional way, but when the car performs an emergency braking manoeuvre, it starts to flash. In this way, it enables the traffic behind to see straightaway how hard you are braking. Automatic activation of the hazard warning lights also lessens the risk of an impact from behind.

OVERBOOST FUNCTION. Performance can be a safety feature in itself. That's why the MINI Cooper S Countryman and MINI Cooper S Paceman are able to boost their maximum torque temporarily from 240 to 260 newton-metres, thanks to a system that momentarily increases the turbo pressure and the quantity of fuel injected in their 1.6-litre twin-scroll turbocharged engines. And more power means overtaking distances are shorter, and therefore safer.

CONCEPT AND SAFETY.

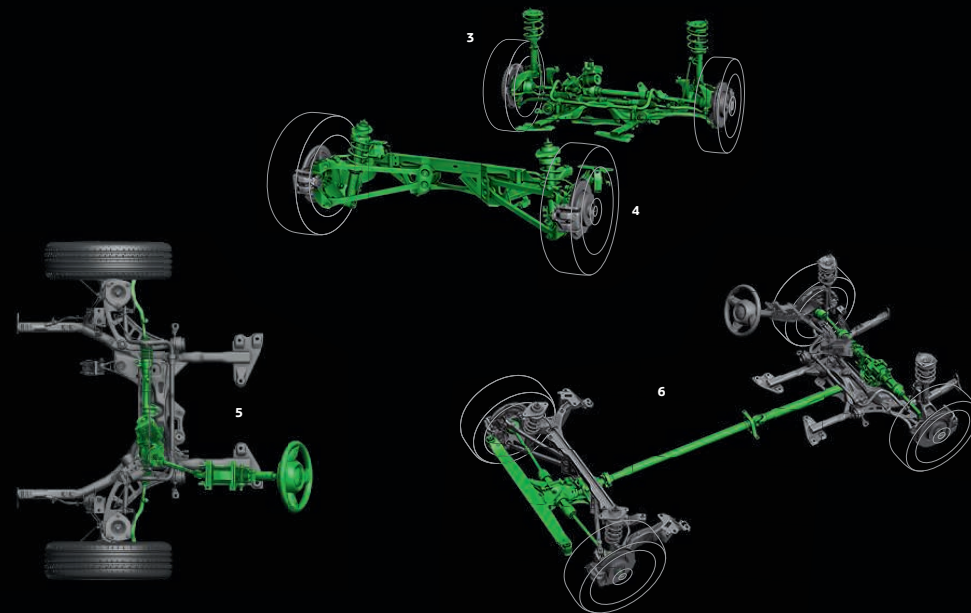

1. DSC AND DTC. Fitted as standard, DYNAMIC STABILITY CONTROL (DSC) counteracts incipient loss of grip by intervening in the engine management and applying braking force to individual wheels at the front and rear as necessary. DSC also includes hill assist.

The optional DYNAMIC TRACTION CONTROL (DTC) with Electronic Differential Lock Control (EDLC) gives drivers the option to make more use of the car's natural handling, by delaying interventions in engine management and braking until the last possible moment – although should the inner wheel lose too much traction, EDLC will apply braking to it, ensuring the car maintains forward momentum

through corners and on surfaces with variable levels of grip. At the same time, it enables more torque to be applied to the outer wheel. Braking interventions on the rear axle also help the car to hold its line when cornering.

2. ADAPTIVE HEADLIGHTS. This system, featuring automatic headlight beam-throw control, ensures optimum illumination whether driving in city or country, and allows drivers to see further ahead on the motorway. Sensors measure the steering angle, rate of turn and vehicle speed, and electric motors then adjust the position of the light beam accordingly to suit the speed and direction of the car (only available in conjunction with bi-xenon headlights).

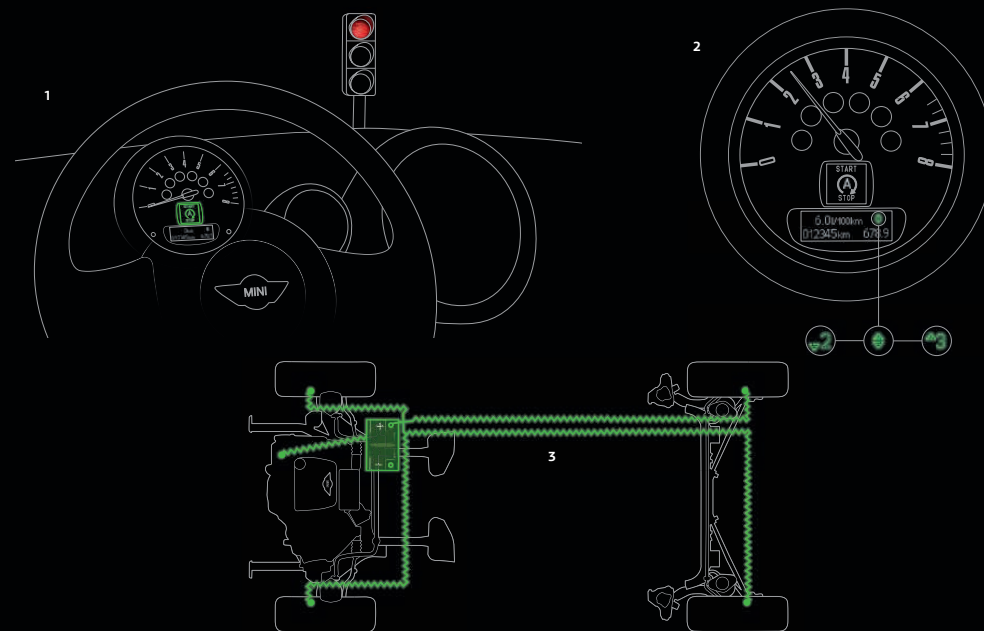

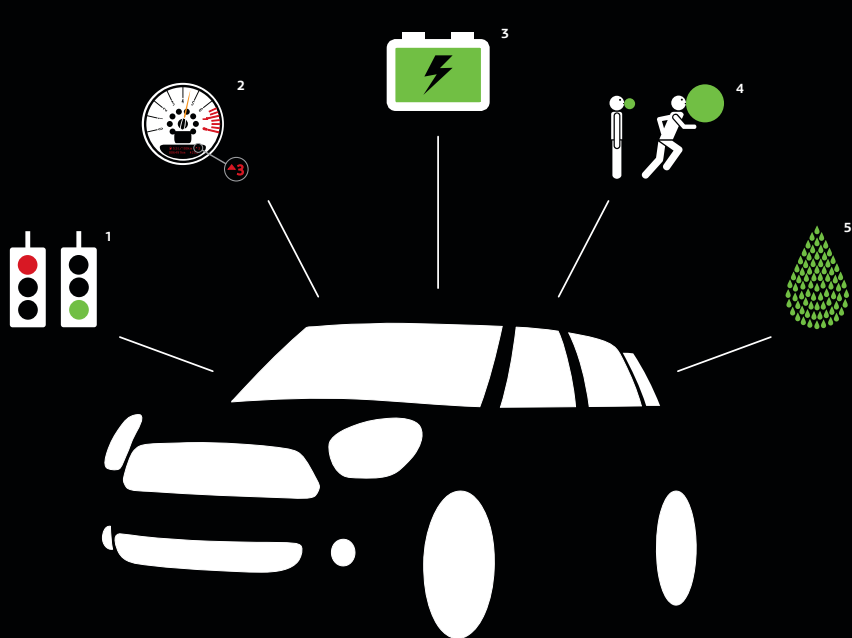

3. SINGLE-JOINT SPRING-STRUT FRONT AXLE. Two drive shafts of equal length in the front suspension minimize the extent to which the drive train interferes with the steering, and optimize the car's cornering, acceleration and braking.

4. MULTIPLE-CONTROL-ARM REAR AXLE. This sophisticated axle design ensures optimum contact between the wheels and the road, for the best possible traction. The aluminium construction keeps weight to a minimum and increases the agility of your MINI Countryman or MINI Paceman.

5. RACK-AND-PINION STEERING. Electric power assist ensures outstanding steering responses, with the driver receiving precise and involving feedback. The stiffness of the steering wheel adjusts to the speed of the car, for easier manoeuvrability at low speeds and smoother direction changes when travelling faster. For maximum comfort, it is only 2.4 turns from full lock to full lock.

6. ALL4. The ALL4 all-wheel drive system distributes the power of the engine between front and rear axles depending on the level of grip. In normal situations, a multi-disc clutch directs up to 50 per cent of the engine torque to the rear axle as required, but if necessary – for instance when driving on snow or ice – this figure can rise to 100 per cent. The result is optimum traction, grip and safety at all times.

CONCEPT AND SAFETY.

MINIMALISM. True to the motto that less is more, a host of innovative technologies combine to ensure that the MINI Countryman and MINI Paceman are not only great fun to drive, but very economical in the process. In the combined driving cycle, the diesel models consume just 4.6 to 4.4 litres of fuel per 100 kilometres (122–115 grams CO₂ per kilometre), and the MINI One Countryman requires 6.0 litres (139 grams of CO₂). The MINI Cooper Countryman and MINI Cooper Paceman models are similarly impressive in the combined cycle, using just 6.0 litres per 100 kilometres (140 grams of CO₂), while the Cooper S models consume 6.1 litres (143 grams of CO₂) over the same distance.

1. AUTOMATIC START/STOP FUNCTION. The Automatic Start/Stop function (manual transmission only) means that when the engine is idling – for example, at a red light or in a traffic jam – it is automatically switched off. As soon as the clutch pedal is depressed, the engine is switched back on.

2. SHIFT POINT DISPLAY. The Shift Point Display (manual transmission only) tells you via instructions in the revolution counter what gear you should be in to maximize fuel economy, reducing your emissions and your expenditure on fuel.

3. BRAKE ENERGY REGENERATION. Brake Energy Regeneration uses Intelligent Alternator Control to convert unneeded kinetic energy into electricity. When the driver's foot is not on the gas, more energy is diverted to charging the battery than when the car is under acceleration.

4. FULLY VARIABLE VALVE TIMING. Fully variable timing of intake valve lift increases power output while simultaneously improving the efficiency of combustion. On all models with petrol engines.

5. COMMON-RAIL TECHNOLOGY. High-pressure injection at a consistent 1,600 bar and multiple pre-injections ensure the diesel enters the cylinder as a fine mist, which makes the engine run more quietly and improves both output and fuel economy.

The **MINIMALISM ANALYSER**.¹ Part of the optional MINI Connected infotainment system (see the "Technology and equipment. Entertainment and communications" section for more details), the MINIMALISM Analyser monitors a number of variables to determine how economically you are currently driving, and gives you advice on how you could use less fuel. After each journey, you can review and compare your driving data with the user-friendly MINI Connected app, and refine your driving style for even greater fuel-efficiency.

Full details of fuel consumption can be found in the Technical Data section on pages 92–94. Figures quoted do not apply to vehicles with automatic transmission or ALL4.

¹ For more information on MINI Connected, see pages 68–69.

¹ All figures relate to vehicles with the standard six-speed manual transmission. Figures in square brackets relate to vehicles with six-speed Automatic Transmission Steptronic.

² All MINI Paceman models comply with the EU5 exhaust emissions standard. MINI Cooper Paceman models with manual transmission comply with the EU6 exhaust emissions standard. Fuel consumption is determined in accordance with the EC driving cycle (as defined in Directive 80/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption. Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted.

³ With overboost function.

⁴ The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

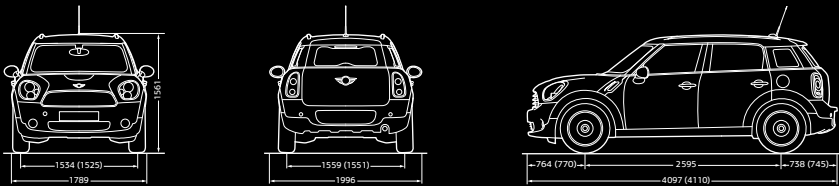

⁵ Not including mirrors.

⁶ Not including antenna/fins.

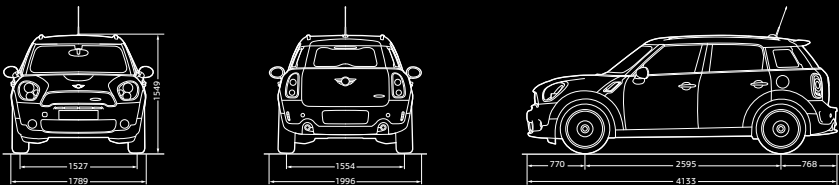

⁷ For technical reasons, engine performance is reduced when it is tuned to avoid carbon deposits.

MINI SERVICE.

THE A TO Z OF SERVICE.

We provide everything that you and your MINI could ever need. Our highly trained specialists are ready, willing and able to tackle any challenge you present them with, small or large, without delay. They can diagnose and repair any electronic, mechanical, structural or cosmetic issues – right down to the smallest chip in the paintwork, everything can be fixed quickly and accurately, ensuring your MINI never loses its sparkle. And as you would expect, we only ever use Original MINI Parts – because only they offer the quality, durability and exact fit needed to make sure that your MINI stays a MINI.

A MINI THINKS FOR ITSELF.

Because it's not just built for quality, but for ease of repair and maintenance too. With a MINI, fixed service intervals are a thing of the past, as the on-board Condition Based Service (CBS) system constantly monitors the status of the car to work out what servicing it needs and when – saving you both time and money.

MINI SERVICE INCLUSIVE.

Why risk any unwelcome surprises in the future? MINI Service Inclusive offers full peace of mind, thanks to the expertise of MINI Service specialists, the guaranteed use of Original MINI Parts and the knowledge that your MINI is always in the best possible hands. What's more, you don't have to rely on your local MINI dealer for assistance. Work can be carried out around the world, by any participating MINI Service Centre. To find out more, see www.MINI.com/serviceinclusive

A BREAKDOWN?

It's unlikely, we know. But working on the basis that anything can happen, MINI Mobile Service is never more than a phone call away, 24 hours a day, 365 days a year. Specially trained MINI technicians will leave no stone unturned to get your MINI moving again, either over the phone or by coming to you at the roadside. In addition, there is a range of other breakdown assistance services to help you complete your journey (details vary from country to country), and MINI also offers incidental costs insurance for accidents and theft.

WE'VE GOT EVERYTHING COVERED.

MINI FINANCIAL SERVICES.

DON'T DREAM IT, DRIVE IT. MAKE IT HAPPEN, WITH MINI FINANCIAL SERVICES.

Admittedly, daydreaming about a MINI can be fun. Just not compared to actually driving one. And the right finance solution from MINI Financial Services can help you find the shortest route from dream to reality, in a way that is tailored to your lifestyle, your budget and the MINI model that you choose.

MINI Leasing, MINI Finance and MINI Select are three roads that all lead to the same destination – namely, making your dream of driving a MINI come true. All of them offer their own unique advantages, and speaking to your MINI dealer will help you decide which one is right for you.

Once you've chosen the car and the finance deal, you'll be asking yourself if there's any way you can make the MINI experience even more exciting. Answer: no, of course not. But what you can do is protect against surprises of the wrong sort, by choosing an insurance solution that was made for MINI drivers. Because as well as finance, MINI Financial Services also offers a range of insurance products that are tailored to your exact needs and preferences.

Your next move? The best thing to do is to make an appointment at your local MINI dealership. The sales advisors there know every MINI Financial Services product inside out, and it's their job to help you make your MINI dream come true.¹

¹ For more information about MINI Financial Services, its leasing, finance and insurance products, and the companies through which these products are provided in your country, visit MINI.com or speak to your MINI dealer. Products and services may vary from country to country.

WARRANTY. RECYCLING.

WARRANTY.

Every MINI is supplied with a two-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts, for example brake pads.) Every MINI also comes with a 12-year anti-corrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under-body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines. The painted surfaces of the car are covered by a three-year warranty. This excludes any damage to painted surfaces caused by improper treatment or unforeseen environmental factors. The statutory rights of the consumer are unaffected.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in the most sustainable and environmentally friendly way possible. That way, every MINI can be efficiently and ecologically recycled when its driving days are finally done.

We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI dealer will be pleased to advise you on the disposal of your old vehicle. Alternatively, more information on this subject can also be found at www.MINI.com
